

ROAD

Damiano Caruso, Giro D'Italia

ELITE ROAD

Ultra-light, efficient race-focused bikes engineered to get you to the finish line first.

ENDURANCE ROAD

Race-level performance meets all-day comfort. Perfect for Gran Fondos, Cyclo-Sportives and long days in the saddle.

TRIATHLON/TT

High-tech aero bikes designed to give you every advantage over the wind and the clock.

CYCLOCROSS

Made to dominate the muddy battles of 'cross racing or accelerate your morning commute.

SUPERSIX EVO

THE UNFAIR ADVANTAGE.

**SUPERSIX EVO HI-MOD
BLACK INC.**

FRAMESET: SuperSix EVO, BallisTec Nano Carbon **WHEELSET:** ENVE Smart 3.4/Chris King tubular **CRANKSET:** HollowGram SISL2 w/SpiderRing (53/39 & 50/34 incl.)
COCKPIT: ENVE Composites **GROUP:** Shimano Dura Ace 9000 **COLOR:** Nearly Black w/ Gold Accents - Matte (01)

The SuperSix EVO is the ultimate road racing machine. With its perfect balance of all the key factors of performance - weight, stiffness, strength, compliance, handling and aerodynamics - the EVO is so good that Peter Sagan calls it his "unfair advantage".

BALLISTEC CARBON

Cannondale's high-strength carbon construction method delivers extreme light weight and perfectly tuned stiffness, without sacrificing strength.

LESS DRAG

Smaller diameter frame tubes means less frontal area and less drag than the oversized competition, without the added weight and harsh ride of aero frames.

SPEED SAVE MICRO-SUSPENSION

Subtle flex zones built into the chainstays, seatstays and seattube allow the rear wheel to track the ground, improving speed, handling and comfort. Tuned to work with the SPEED SAVE Fork.

SPEED SAVE FORK

BallisTec Carbon and offset dropouts deliver tuned vertical compliance and razor sharp handling. Works as a system with rear triangle.

SIZES

48, 50, 52, 54, 56, 58, 60, 63cm

SUPERSIX EVO

Elia Viviani, Giro D'Italia

EVO FRAME OPTIONS

- 1 - EVO Nano:** The lightest production frame on the planet utilizes advanced high modulus BallisTec Construction and nano tech resins for maximum weight savings.
- 2 - EVO Hi-MOD:** The frame that started it all in 2012. High modulus BallisTec construction delivers extreme light weight and stiffness.

3 - EVO Carbon: By using a higher percentage of intermediate-modulus fiber to tune the stiffness, we are able to expand the EVO line with a super high-performance, sub-950 gram frame. Offered both with and without internal rear brake routing.

**SUPERSIX EVO HI-MOD
DURA ACE DI2**

FRAMESET: SuperSix EVO, BallisTec Hi-MOD Carbon, Di2 Specific **WHEELSET:** Mavic Cosmic Carbone 40 WTS **CRANKSET:** HollowGram SiSL2 w/SpideRing (53/39 & 50/34 incl.) **COCKPIT:** FSA K-Force/05-99 **GROUP:** Shimano Dura Ace Di2 **COLOR:** Charcoal Gray, w/ Black, Carbon and Green - Matte (01)

ROAD
ENDURANCE ROAD

SYNAPSE CARBON

CRUSH MEETS PLUSH.

SIZES
48, 51, 54, 56, 58, 61cm

**SYNAPSE HI-MOD
BLACK INC.**

FRAMESET: Synapse, BallisTec Hi-MOD Carbon **WHEELSET:** Vision Metron 40 **CRANKSET:** HollowGram SiSL2 w/SpideRing, 50/34
COCKPIT: FSA SL-K/DS-99 **GROUP:** Shimano Dura Ace 9000 **COLORS:** Nearly Black, w/ Black, Gray - Matte (01)

From the beautiful effort of the Gran Fondos, to the cobbled chaos of the Northern Classics, to all-day-epic adventures of your own making, the all-new Synapse's balance of raw power and all-day ridability means that "endurance" is no longer code for "boring".

**S.E.R.G. SYNAPSE
ENDURANCE RACE GEOMETRY**

S.E.R.G. strikes the ideal balance between pure race positioning and upright comfort. Perfect for long days in the saddle and confident handling on all road surfaces.

**SAVE PLUS -
SEATPOST/SEAT TUBE**

The shaped seat tube and 25.4mm seatpost are designed to flex together for additional comfort when seated.

POWER PYRAMID/BB30A

The seat tube splits asymmetrically to meet a new wider 73mm BB30A bottom bracket, for maximum stiffness with minimal weight.

SAVE PLUS-FORK

The shaped fork blades and offset dropouts let the front wheel track smoothly over rough surfaces. Works as a system with the rear triangle.

SIZES

48, 51, 54, 56, 58, 61cm

SYNAPSE CARBON

SAVE PLUS - REAR TRIANGLE

The helixed shapes of the rear stays work with the fork to absorb bumps for better comfort and control. The seat tube and 25.4mm seatpost flex together for additional comfort in the saddle.

SLICE RS

NARROW IS AERO.

Everything on the Slice RS is designed to minimize frontal area, which reduces drag and lets it slice through the wind. The ultimate weapon for time-trialists and triathletes seeking the fastest way to the finish.

SLICE RS BLACK INC.

FRAMESET: Slice RS Hi-MOD Carbon BARS: Vision Metron Slice RS Integrated GROUP: Shimano Dura Ace Di2
CRANKSET: HollowGram SiSL2 Aero, 53/39 WHEELSET: Vision Metron 81 COLORS: Nearly Black, w/ White - Matte (01)

NAEROTEC SEATPOST

The thinnest UCI-legal seatpost ever made. Its tiny frontal area causes minimal disruption of air flow over the top tube.

INTEGRATED AERO BAR

Vision Slice RS base bar with CFit aero position adjustability integrates cleanly into the stem and offers full internal cable routing through the stem and headtube.

NAERO-TEC FORK

External steerer design allows for an incredibly narrow headtube for reduced drag, while being extremely stiff for precise handling.

AERO SAVE ANTI-VIBRATION SYSTEM

AERO SAVE seat stays absorb shock, reducing fatigue and helping you come off the bike fresher for the run.

SIZES
50, 52, 54, 56, 58cm

NARROW IS AERO

WINDTUNNEL PRESSURE-DRAG REDUCTION CHANNEL

The WindTunnel channel behind the seat tube reduces the pressure drag on the wheel, allowing it to spin more freely.

WINDSHADOW BRAKES

Integrated brakes hide in the windshadow of the fork and BB. Easy-to-adjust V-brake design provides tons of stopping power.

SLICE RS

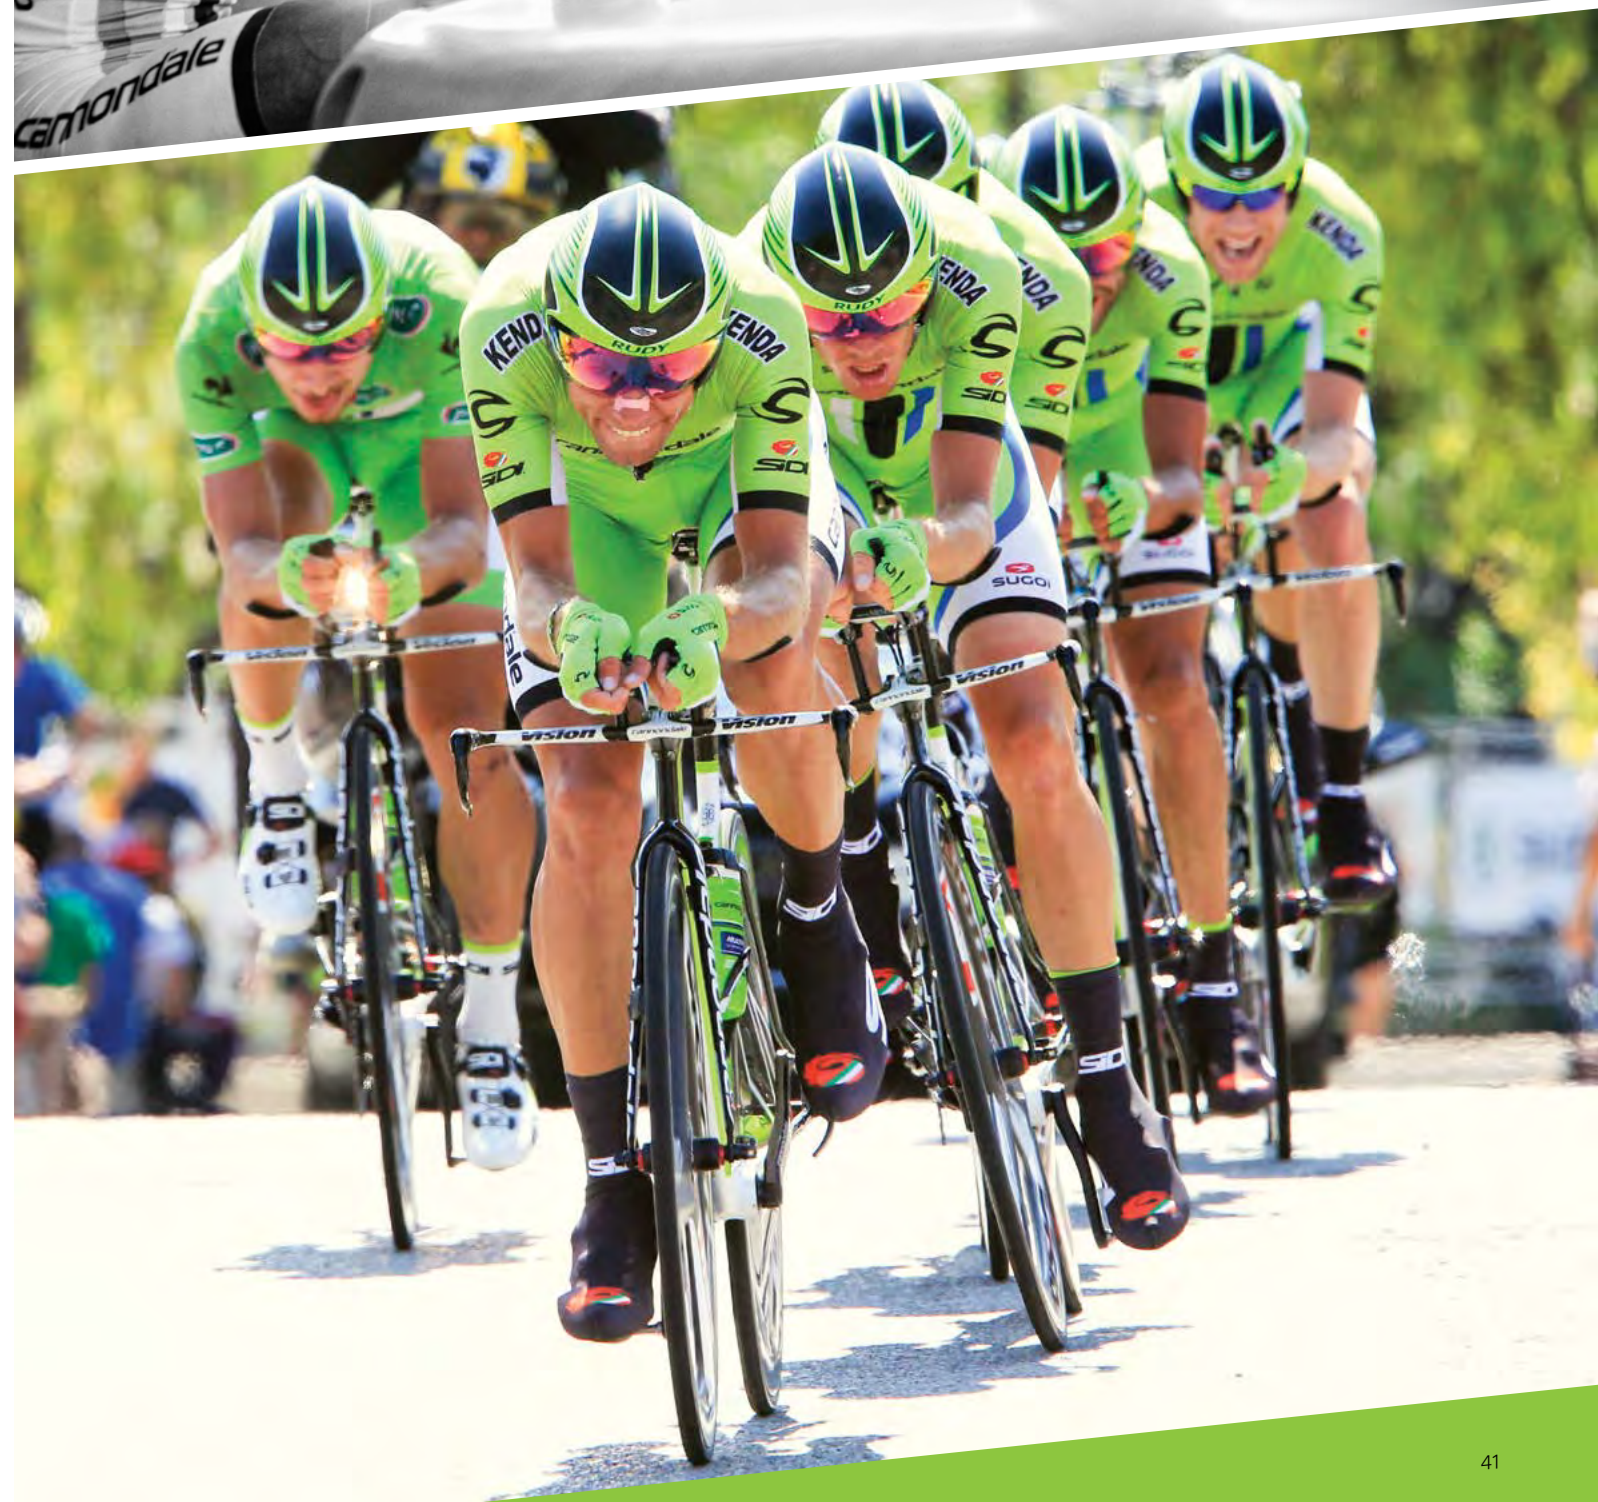

SLICE RS DURA ACE DI2

FRAMESET: Slice RS Hi-MOD Carbon BARS: Vision Metron Slice RS Integrated GROUP: Shimano Dura Ace Di2 / Ultegra CRANKSET: HollowGram SISL2 Aero, 53/39
